

GLADYS LOPEZ

Transportation Dept.

"Can I tell you what a pleasure it was meeting Gladys Lopez, a Dispatcher with Transportation! Within the first 10 seconds of watching Gladys, our jaws dropped! it was as if she had 4 hands."

Gladys was working with 3 phones assigning drivers to routes and addressing route emergencies so efficiently & with such calm. We quickly learned how important her job is and how good she is at it!"

- HR Team

"Gladys Lopez arrives every morning at 5 AM knowing she has more routes to cover than she has staff. She is like a conductor leading a 98-piece orchestra moving drivers around to transport students to school. Her ability to assign drivers in an emergency or bus breakdown is a example of her complete knowledge of her job, where routes are located, and the Hernando County street network is amazing. She is the unsung hero in providing our student a quality education."

Ralph Leath - Transportation Director
