

Hernando County School District

1:1 Device Set Up

Student Name

Set up home internet:

- Turn on device.
- A screen may open that will require you to select Wi-Fi, otherwise select the globe in the bottom right.
- Choose your home internet and enter your password.

Set up Device:

First Sign In:

- Select “other user” in the lower left corner of the screen.
- Sign in using your child’s single sign on credentials which can be determined as follows:

Student Email: first_name.last_name (i.e.; john.doe) number qualifier if they have one (1) @hernandoschools.org

Default Student Password: Capitalized initial of student’s last name, followed by the student 7 digit ID with leading zeros if needed to make 7 digits (i.e.; Student Last Name = Doe, Student ID = 12345, Password = D0012345)

Student Sign In after First Sign In:

- Select “other user” in the lower left corner of the screen.
- Sign in using your child’s single sign on credentials which can be determined as follows:

Student SSO Username: first_name.last_name (i.e.; john.doe)

Default Student Password: Capitalized initial of student’s last name, followed by the student 7-digit ID with leading zeros if needed to make 7 digits (i.e.; Student Last Name = Doe, Student ID = 12345, Password = D0012345)

Processing time:

- Allow time for the computer to process the credentials, policies and updates. This can vary depending on internet speed and other factors.
- During this time your device may reboot more than once, you may have to reenter your child’s password.
- Once Microsoft Teams comes up the machine is ready for use.

Accessing online textbooks and materials:

- Open the browser to access your student’s ClassLink Launchpad.
(launchpad.classlink.com/hernandoschools)

Device expectations:

- Devices come back and forth to school every day.
- Devices should be charged every night from home.
- Report any issues right away.

Need support:

- Contact the HCS D student help desk available Monday – Friday (352)-797-7002.
